

IMPROVE YOUR ENGLISH LEVEL WITH CHATGPT

Marjona Tursunqulova

Second-year student in Samarqand State Institute of Foreign Languages

Abstract. The provided article illustrates how to make better your English level with ChatGPT. Also, the researcher will make a discussion about cost-effective boons of utilizing ChatGPT in order to achieve success in English. In the following paragraphs we will introduce ChatGPT, what are the benefits of AI in education and useful strategies of ChatGPT to enhance English level.

Keywords. Artificial intelligent, vocabulary improvement, check writing, speaking, grammar structures.

Introduction. In the advanced era AI is quite ubiquitous not only among young children but also senior citizens. We can do anything with cutting-edge technologies today. E-learning, online shopping, distance working are excellent example of this. Online education is common all over the world these days. To specific we can increase our knowledge with ChatGPT in English. By ChatGPT students can improve their English level conveniently and perfectly. There are multiple functions of ChatGPT to improve English level. By the usage of these amenities of ChatGPT, students can really achieve their goals. This AI technology is so helpful both for its flexibility and facilities. Here students will learn how to increase their English level with the beneficial functions of ChatGPT.

Students can enhance their English level with ChatGPT today. AI is all the rage among students now. There are an ample amount of amenities of AI technologies like ChatGPT in education. Students can utilize ChatGPT anywhere and anytime. As we all know in recent times we cannot imagine our life without contemporary technologies. And also, we surf the internet for unnecessary purposes. That's why, we will introduce you how to use net properly to increase your English level.

What is ChatGPT?

ChatGPT is an AI language model developed by OpenAI. It is designed to understand and generate human-like text based on the input it receives. Now we will introduce benefits of AI.

"Advantages of using AI in education:

Personalization of learning

AI allows adapting study materials to the level of each student. This means that each individual can learn at their own pace, strengthening their weaknesses and advancing in areas where they show greater ability.

Administrative efficiency

Educational institutions can use AI to automate administrative tasks, allowing educators to focus more on teaching and less on bureaucracy.

Accessibility

AI facilitates student access to high-quality educational resources, regardless of economic status or geographic location.

Continuous assessment

AI can assess each student's progress and provide real-time feedback, helping them identify their strengths and areas for improvement.

Although, as it is often said, all that glitters is not gold".<https://www.cis-spain.com/en/blog/the-benefits-of-ai-in-education/>

Speaking practice. ChatGPT is the best to increase your speaking skills. You can speak with ChatGPT about various topics. If you give a question ChatGPT responds in a few seconds. If you speak about something ChatGPT can make it complex, teach how to speak and give good ideas. Furthermore, students have a great chance to know their mistakes during speaking due to the fact that ChatGPT can check your errors. Also, ChatGPT is optimal way to speak anytime and it doesn't enquire any income. "Here are some strategies for using Chat GPT to improve English fluency & confidence...

1. Shadowing: Shadowing involves listening to a sentence and then trying to repeat it exactly as you heard it, mimicking the pronunciation, rhythm, and

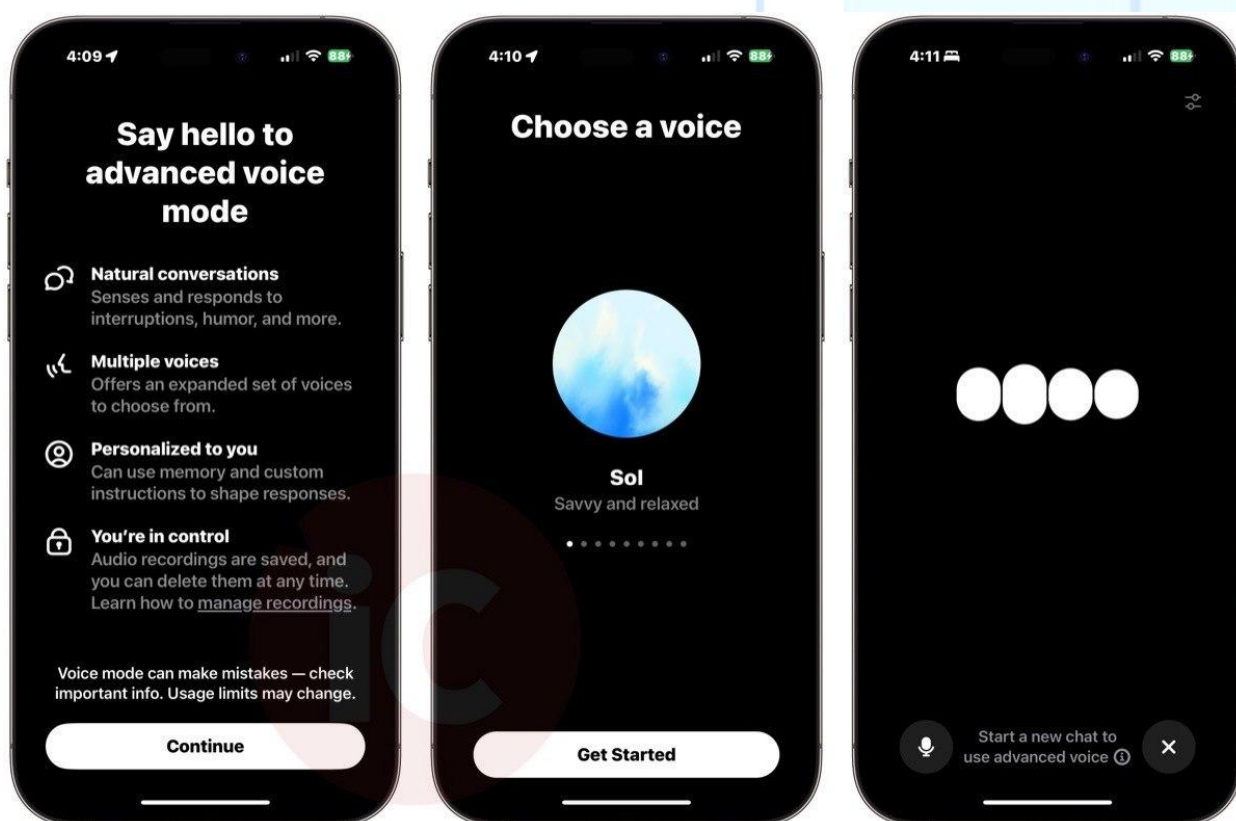

intonation. You can use the texts generated by Chat GPT and a TTS tool for shadowing practice.

2. Role-plays: Use Chat GPT to create dialogues that you can use for role-play exercises. You can play both roles yourself, or you can do the exercise with your Cambly tutor.

3. Speech practice: Use Chat GPT to generate topics for short speeches or presentations. Then, practice delivering the speech aloud. This can help improve your fluency and give you practice in organizing your thoughts in English.

4. Debate practice: Ask Chat GPT to provide two sides of an argument on a particular topic. Practice arguing for both sides. This can help you learn to express your thoughts clearly and persuasively in English.

5. Interview practice: Ask Chat GPT to create common interview questions for you. For example, use a prompt such as... "Please write 20 ice-breaker questions that an interviewer might ask." Or, "Please write 20 fun facts about me style questions they might ask in an interview." Also check out this article I wrote with more tips about using AI to help you prepare for interviews in English".(Teacher Joe)

Writing. There are many kinds of functions of ChatGPT to ameliorate writing level. ChatGPT can examine and evaluate your essay, letter or thesis. And it can instruct how to write and give ideas. It supplies complicated samples. By reading these samples, you can increase your writing level. "Here are some ways to use Chat GPT for writing practice:

1. Sentence construction practice: You can type in a word or a phrase and ask Chat GPT to use it in a sentence. This can help you see how the word or phrase is used in context, which can improve your sentence construction skills.

2. Paragraph writing practice: You can write a paragraph on a particular topic and ask Chat GPT to continue it. This can give you a model of how to develop ideas and organize information in a paragraph.

3. Essay writing practice: You can use Chat GPT to generate an essay on a specific topic. This can serve as a model for how to structure an essay, how to develop an argument, and how to write an introduction and conclusion. Find IELTS essay topics here.

4. Writing feedback: While Chat GPT doesn't provide feedback in the traditional sense, you can use it to generate alternative ways of expressing your ideas. For example, you can write a sentence or a paragraph and then ask Chat GPT to rewrite it. This can provide you with different ways of expressing the same idea, which can enhance your writing skills". (Teacher Joe)

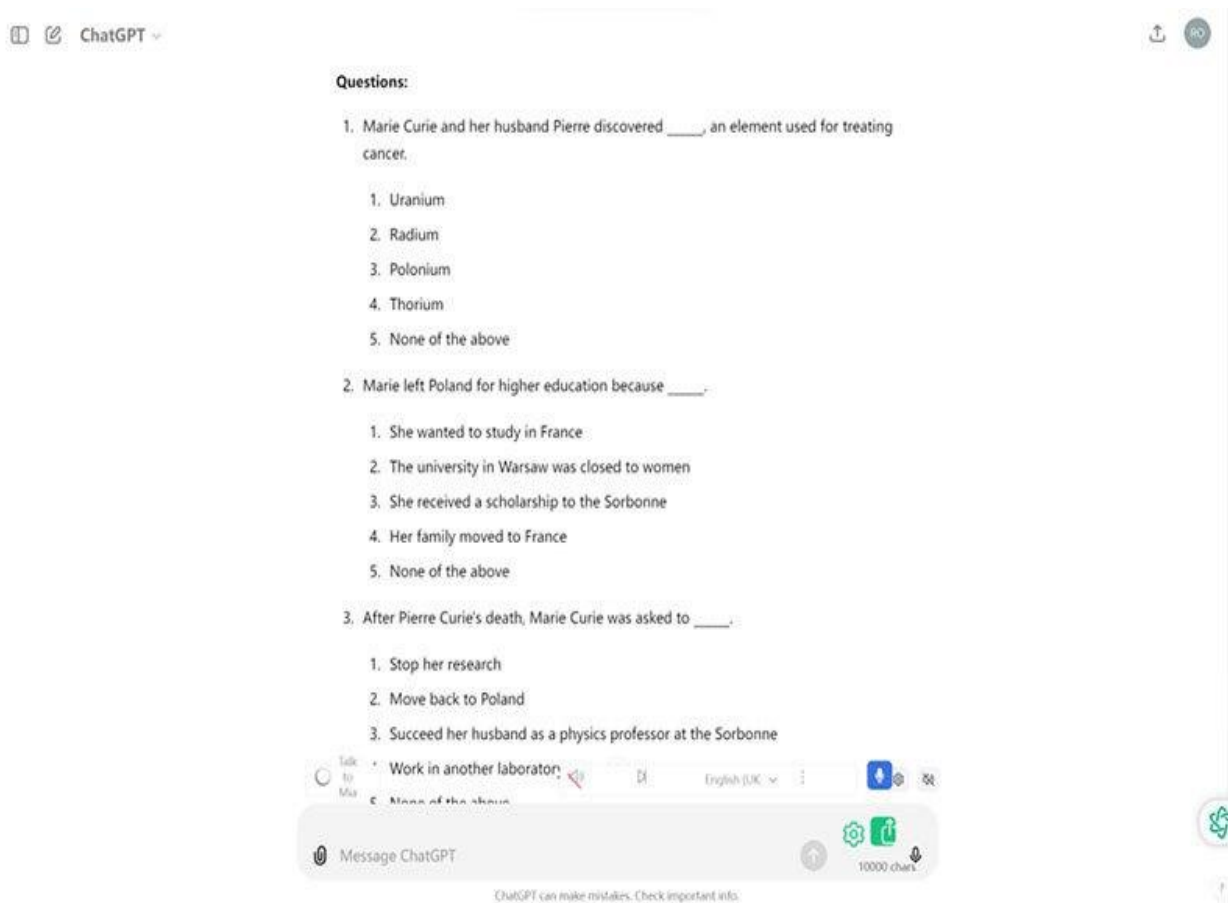

Create sample writing prompts to prepare for the toefl exam

1. Some people believe that it is better to live in a small town, while others think that living in a big city is preferable. Discuss the pros and cons of both and explain which one you would choose and why.
2. Many people today rely on technology to complete their daily tasks. Discuss the impact of technology on society and whether or not this reliance is a good thing.
3. Some people believe that university education should be free for all students, while others disagree. Discuss the pros and cons of free university education and explain your opinion on the matter.
4. Many companies are now allowing their employees to work from home. Discuss the benefits and drawbacks of remote work and explain why you think it is a good or bad idea.
5. Some people believe that the government should provide free healthcare for all citizens, while others disagree. Discuss the pros and cons of free healthcare and explain your opinion on the matter.
6. Many people today are concerned about the environment and the effects of pollution. Discuss some ways that individuals and governments can work to reduce pollution and protect the environment.
7. Some people believe that the use of animals in scientific research is necessary, while others disagree. Discuss the pros and cons of using animals in research and explain your opinion on the matter.
8. Many people today are concerned about the effects of climate change. Discuss some ways that individuals and governments can work to reduce their carbon footprint and help to slow down the effects of climate change.

Reading. Reading is easy with ChatGPT. You can find dissimilar readings with answers. ChatGPT provides unlike types of reading. "It's also a good idea to tell ChatGPT how many questions you'd like it to give you. I often prefer to have some easy and difficult questions, so I can adjust the exercise depending on how well the student understands the topic, and ease them into it a bit more.

Try adding something like "with X easy questions and X difficult questions". (Wilim Abrook, 2023)

Grammar. ChatGPT is quite helpful to rise grammar skills. If you ask ChatGPT can give the rules of grammar with examples. In addition to this students can find topic based tests and exercises. "Explain grammar forms and rules

Instead of a Google search you can ask ChatGPT to explain to you in writing a certain grammar rule, or when to use a certain tense. Take into account that the explanation will not always be 100% correct! This is why books, websites and blog posts written by experts are more reliable. However, when it comes to basic tenses and grammar rules it does a pretty good job and can save you time". (Hadar Shemes, 2023)

Can you write 10 sentences in the present perfect progressive tense

Sure, here are 10 sentences in the present perfect progressive tense:

1. I have been studying for three hours.
2. She has been working on her project all day.
3. They have been playing soccer for two hours.
4. He has been writing a novel for the past year.
5. We have been planning the party for the last month.
6. The dog has been barking nonstop for the past hour.
7. You have been waiting for me for 30 minutes.
8. I have been reading this book for the last two days.
9. She has been practicing the piano for three hours.
10. They have been exercising for the past hour.

Vocabulary. There are many apps to find vocabulary. But ChatGPT is so helpful. ChatGPT can recommend not only phrasal verbs, collocations but also idioms. If you write any topic, ChatGPT gives you different vocabularies. In order to increase your vocabulary level, you can know definitions and examples of vocabulary. And it can teach you how to use these vocabularies for writing, speaking in English. "Want to understand how a word is used in a regional variation, like American English, Brazilian Portuguese, or Colombian Spanish.

Just ask:

What does [word] mean in [language variant]?

You can also ask ChatGPT to list vocabulary that differs across language variants:

Can you give me a list of [topic]-related vocabulary that is different in [language variant 1] and [language variant 2]?" <https://www.techforword.com/blog/8-ways-to-power-up-your-vocabulary-with-chatgpt>

Make a list of idioms and expressions related to food.

1. "A taste of one's own medicine" - means experiencing the same thing that one has inflicted on others.
2. "Bring home the bacon" - means to earn a living or to achieve success.
3. "Cook up a storm" - means to prepare food with great skill and energy.
